

Care Instructions for Your New Skin Suit

*The skin suit material is very sensitive.
Follow these instructions for best results.*

Avoid all contact with Velcro

- To avoid velcro on other equipment, use a fabric bag or pillow case when storing skin suit in equipment bag.
- Wash separately from other garments that have Velcro or exposed zippers
- Be careful of wearing gloves with velcro tabs on the wrists.

Wash instructions

- Gentle cycle only
- Zip up suit
- Turn suit inside out
- Use fabric bag if possible
- No fabric softener

Hang to dry ONLY. Suits cannot go in the dryer!

DO NOT allow skater to crawl on the floor or play on equipment wearing the suit (wear pants over suit when not skating);

DO NOT use hair or hand dryers on suit (the plastic in the fabric will melt);

DO NOT pull white Dynema lining down over the back of skates because it will stretch and tear the fabric.

Enjoy your new Cobra skin suit!
